- Deadline for abstract submission is: 17 January 2016 The submitted abstracts will be reviewed in a blinded way and will be evaluated based on:
  - Novelty and scientific quality.
  - Clarity of the aim and experimental design.
  - Relevance of the topic and the results.

## ABSTRACTS

### A. Topics for submission:

To allow efficient handling of the abstracts, the authors are requested to submit their abstracts in one of the following topics and are requested to submit 3 keywords.

The scientific committee requires you to choose topics.

- Nuclear reaction measurements, analysis and evaluation
- Nuclear masses, structure and decay data measurements
- Nuclear reaction and structure theory, models and codes
- Fission physics and observables
- Spallation, high and intermediate energy reactions
- Nuclear physics of fusion
- Astro nuclear physics
- Experimental facilities, equipment, techniques and methods
- Integral experiments, benchmarks and data validation
- Importance of nuclear data for reactor operation and safety
- Importance of nuclear data for other applications
- Nuclear data in science and engineering
- Medical radioisotopes production
- Particle therapy
- Properties of medical radioisotopes
- Novel radioisotope production methods
- Evaluated libraries, processing and consistency
- Evaluation methodology
- Uncertainty and covariance generation and propagation
- Thermal scattering laws and libraries
- Dissemination, data formats and storage
- Education

The scientific committee reserves the right to switch abstracts to other topics

## B. General Instructions:

- 1 As only a limited number of oral presentations can be accepted, authors are requested to indicate whether they wish their abstract to be considered for:
  - oral presentation
